Principal’s Update

COMMUNITY GARDEN
Mr Benge and his enthusiastic group of gardeners have replanted our school community garden and produce has been put up for sale. The environmental group and parent helper Ms Muller, now have secured a corner of Mr W’s shed for storage of equipment. Plans are underway to build two more garden beds. The community garden is becoming a valuable teaching resource for curriculum studies as well as teaching students community participation, team work and job satisfaction. Mr Benge and the student council environmental sub-committee have more plans in the pipeline for an eco-walk and teaching area at the front corner of the school near Musgrave Rd. This plan is under consultation...watch this space!

BEGINNER STRINGS EVENING

Thank you so much to all of the families who came on Monday night to our Beginner Strings evening.

The children showed their parents all of the things they have learnt so far this year – and very well I might say!

They then went on to instruct their parents in the playing of the instrument and the parents then demonstrated their talents on their child’s instrument. A lot of fun and laughter could be heard through the evening.

Thank you Mrs Gray for arranging this event.

MOTHERS DAY STALL

There were a lot of excited children on Wednesday and Thursday, shopping for their mothers.

Thank you to the P&C members who organised and managed this event for the children. Having such real life experiences for them helps in their learning.

Happy Mothers Day (on Sunday) to all of the mothers in our school community. Have a great day. Children, it is up to you to make it special!

Sports uniform, including hat is required and we encourage students to apply and reapply sunscreen during the day.

If you are able to assist on the day volunteers are always appreciated, please contact the coaches directly or via the office.

**LOTE News**

**Ni Hǎo! 你好**

In the first two weeks of LOTE lessons in term 2, 3/4C and 3B students were applying their Chinese learned knowledge to work on their number trees and mother’s day cards. Are those artworks beautiful?

- Mother’s Day in China falls on the second day of the fourth month of the lunar calendar every year, but it is generally celebrated on the second
Sunday in May. It is a holiday that was first celebrated regionally in Hong Kong and Macau. After the Chinese economic reform in 1979, the Chinese mainland began to embrace this holiday.

Distinguished from other countries, the Chinese people regard Mencius's mother as the paradigm. Mothers would traditionally receive hemerocallis flowers from their sons and daughters on this holiday. But nowadays carnations or forget-me-nots have become alternatives. Mother's Day is a day to celebrate and recognize all mothers. She is the main focus of the day and everything revolves around her. Different cultures celebrate the day in various ways depending on their cultural and religious backgrounds—but the common theme is the same no matter what ethnicity or country you come from—and that is a day full of joy and happiness, spent with family and friends.

  Happy Mother’s Day!

You Can Do it!

This term our new foundation is Persistence. Persistence means that we always keep trying no matter how hard or frustrating something becomes. It means NOT giving up no matter what!

The Foundation of Persistence

*Student Goals:* to try hard and not give up easily when doing school work I find frustrating and do not feel like doing; to keep trying to complete an assignment rather than becoming distracted; to choose to play after I have done my work; when having a lot of work to do in different subjects, do not give up but make the additional effort required to complete it.

**Persistent Behaviour**

- Trying and completing work found to be “boring.”
- Listening when tired.
- Staying on task.
- Completing the assignment in the time allocated.
- Keeping track of progress on accomplishing different steps of doing an assignment as outlined by the teacher on the board.
- Staying up-to-date on writing in a journal.
- Coming in and asking for extra help.
- Completing homework on time.
- Asking necessary questions.
- Not being distracted by classmates.
- Redoing something until it is correct.
- Locating key concepts on the written page.
- Finishing work instead of playing.
- Asking for help rather than giving up.
- Editing/checking completed work for mistakes.
